

# XXVth Rencontres de Blois

## Château de Blois

### 26th - 31st May 2013

# Particle Physics & Cosmology

#### Programme Committee

Etienne Augé, IN2P3 Paris, France  
Ludwik Celnikier, Obs. de Paris, France  
Jacques Dumarchez, LPNHE, France  
Yannic Giraud-Héraud, APC, France  
Karl Jakobs, Uni-Freiburg, Germany  
Christophe Grojean, ICREA/IFAE & CERN  
Sotiris Loucatos, Irfu-CEA & APC, France  
Boaz Klima, FNAL, USA  
Thomas Lohse, Humboldt Univ., Germany  
Silvia Pascoli, Durham Univ. UK  
Bolek Pietrzyk, LAPP, Annecy, France  
Elizabeth Simmons, Michigan State U., USA  
Chung-I Tan, Brown University, USA  
Jean Trân Thanh Vân, Orsay Univ., France

#### Topics include:

The Higgs boson  
Physics beyond the Standard Model  
Neutrino physics  
Electroweak and QCD physics  
Top and bottom quark physics  
Dark matter and dark energy  
Cosmology and astroparticle physics  
Future facilities (accelerators & telescopes)

new models  
new physics  
new techniques
